

Matt
series

Sophisticated
Designer Project.

PRODUCT FORMAT

Size:
600X1200MM

Finish:
MATT

In matt tiles, a special layer is added on the topmost layer to achieve a non-shiny and subtle look.

The most prominent feature of matt tiles is their anti-slippery nature, which makes them ideal flooring options for all spaces, including those with high water usage like bathrooms, kitchens, and balconies.

MATT

SERIES

APPLICATION

Greet a complete home solution product range with us. One of the most popular practices for modern-day homes is to extend the flooring of the Living room to the kitchen.

A well designed Matt finish tiles that will perfectly complement your trendy space.

FEATURE

Water Proof

Resistant To Scratches

Resistant To High Temperatures

Easy To Clean

Resistant To Bending

Resistant To UV Rays

The parameter used for slip resistance is called the Coefficient of Friction (COF). The higher the COF, the better the slip resistance of the tiles. Unglazed tiles, mosaic tiles (with many grout joints) and rough surfaced tiles are less slippery when compared with smooth and matt tiles.
